Lorie and Yazmine,

Attached are the two site characterization forms for your review. Let me know if you have any changes.

Thank you.

Terry,

Thanks! We will definitely have the signed forms by then. We did the PFAS consultation worksheet for both site prior to starting the site assessment work out there. Do we need to do any follow-up consultation if we are planning on listing the sites?

Although PFAS in municipal wells is the main issue at both sites, we are scoring both for other contaminants. For Blades, we also have cyanide & chromium since the main source is a plating facility. For we also have VOCs in the groundwater.

Hi Lorie,

Sure, you can use unsigned for the Panel but we'll need to see the signed version when we start the HQ management briefings.  
Are you using PFAS in the scoring? Have you done the PFAS consultation worksheet?

Terry

Terry,

Can we send you unsigned ones for purposes of the NPL panel? We aren't able to brief our DD until the 31<sup>st</sup> and expect to have her sign them at that time. I'm sure you'd prefer to have them before the morning of the call.

We are planning on 2 – Both sites involve PFAS (and other VOCs) in Delaware.

Lorie

The next NPL Listing Panel is scheduled to be held via teleconference and Adobe Connect on Wednesday, August 1<sup>st</sup> from 12:00 – 3:00 pm eastern time. I have already sent the calendar invitation.

The Adobe Connect Link is

And the call in number is

**Ex. 6 Personal Privacy (PP)**

Attached you will find the template for the August NPL Listing Panel Site Characterization Form. Sites reviewed during the August Listing Panel are expected to be included in the March 2019 proposed rule. I have also attached the projected schedule for the March 2019 rules.

We are hoping to get our NPL rule publications back on the September and March schedule, but of course cannot account for circumstances that may arise. As such, there will likely be adjustments to the rule schedule as the time gets closer.

Please submit your completed, Division Director-signed Site Characterization Forms to me by July 26<sup>th</sup>.

Thanks.
